

WOVEN DROP STITCH SCRAP SCARF/WRAP/AFGHAN

Materials:

For Scarf: 1 Ball Worsted Weight Yarn (used Lamb's Pride Worsted in Onyx for Sample)

For Wrap: 2-3 Balls depending on desired length of wrap

For Afghan: Approx 8 balls depending on desired length of afghan

Various scraps of novelty yarns, each at least 7 feet long

Size 11 needles, circular 24"-36" for afghan

Cast on 19 for Scarf (7 1/2" wide), 40 for Wrap (15 1/2" wide), 100 for Afghan (40" wide)

Working in Garter Stitch, knit every row until 1, 2 or 3 yards of yarn remains, depending on whether you are making a scarf, wrap or afghan.

On the last row, work drop stitches as follows:

K3, drop next stitch all the way down to the cast on row, creating a run. Take the topmost strand and place it twisted back on the left needle. K3 (includes replaced drop stitch), then drop again. At the end of the row, K4, including the last replaced dropped stitch. For the scarf, there will be 5 "runs" down the entire length of the scarf. It may require pulling and picking to take the stitches all the way down to the cast on row.

Next row: Bind off.

Using several strands of novelty yarn, weave through the "runs" from end to end. Knot the woven strands at the top & bottom to prevent them from creeping out.
